My personal strengths would be great technique and 1v1 attacking, great vision on the field, I have a good eye for goal and I am a strong finisher I also love making the nice pass to get my teammate a good opportunity to score. I have good speed and love to run at defenders, I'm comfortable using either foot, I love the game of soccer and I give it my all and work hard to become the best I can.

Soccer has been a big part of my life and all my passion and heart go into the sport. My goal is to play professional soccer and to receive a scholarship at a good university in America.
